

Message to Students

(On COVID -19 Lockdown)

One of the biggest challenges for parents during lockdown period; we are all in an unfamiliar situation and have no clue of how to deal with corona virus (COVID-19) pandemic. The Covid_19 pandemic has affected educational system nationwide, leading to near total closures schools colleges and universities.

Closures of Educational institutions impact not only student's teachers and families but have far reaching economic and social consequences during the lockdown period I hope that all the students utilise time very sincerely and honestly. It is not possible to start the classes while not lifting the lockdown by the govt of Assam. So Students are asked to keep in touch with their respective department through different whatsapp group or online class system means to clear the doubts.

At the last we request all of you that you keep social distancing or physical distancing is a set of non pharmaceutical intervention or measures intended to prevent the spread of contagious disease by maintaining a physical distance between people.

(H.K .Nath)
